Marlow

## EZYiD - *A BETTER WAY TO AUDIT YOUR ASSETS!*

Using state of the art RFID technology, EZYiD uses the EZYiD Reader/Writer as a RFID key fob, capable of reading any EZYiD product and transmitting stored data with the push of a single button - empowering the EZYiD reader as a Human Interface Device (HID) which enables versatility across all software platforms.

This "plug and play" easy-to-use device allows the reading and transmission of EZYiD tag data to any Bluetooth® enabled PC, laptop or mobile device. The reader is not constrained by any software, making it incredibly versatile and adaptable to your existing audit software.
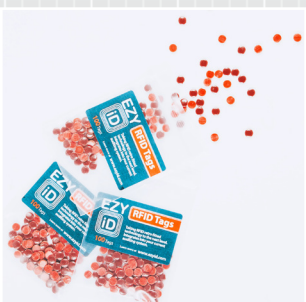

EZYiD Reader/Writer is available in ETSI (Europe), FCC (USA) or AMCA (Australian) frequency configurations.

ASK US ABOUT ADDING EZYID TO YOUR MARLOW PRODUCTS

BENEFITS:

- **MAKES IDENTIFYING ASSETS EASY**

- **TIME SAVING**

- **REDUCES HUMAN ERROR**

- **SYNCHRONISES WITH YOUR EXISTING AUDIT SOFTWARE**

- **PORTABLE SYSTEM**

- **CUSTOMISED TO YOUR NEEDS**

- **EZYiD TAG, TIES AND STICKERS CAN BE APPLIED MANUALLY TO ANY PRODUCT**
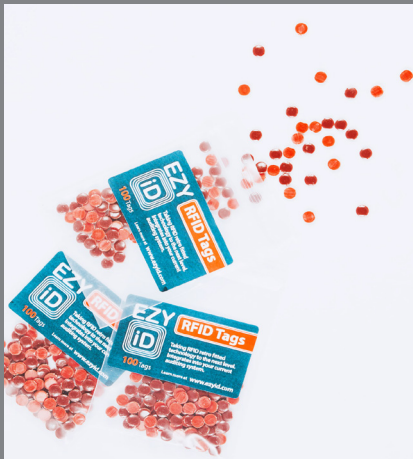

- **IMPROVES PRODUCTIVITY**

READER SPECIFICATION

- **1 FUNCTION KEY FOR RFID READ ACTIVATION MULTI-TONE BEEPER THAT SIGNALS RFID READ AND TRANSMISSION TO USER DEVICE**

- **OPERATING SYSTEM COMPATIBILITY: iOS, ANDROID, RIM, WINDOWS MOBILE/PHONE, WINDOWS, OSX, LINUX**

- **2 LED FOR DEVICE SIGNALLING INTERFACES: USB AND BLUETOOTH CLASS 2**

- **BATTERY: LI-POLY 3.7 Vdc 300MAH, RECHARGABLE VIA USB, UP TO 10,000 READINGS WITH FULL CHARGE**

- **POWER SUPPLY: USB POWERED 5VDC**

EZYID RETROFIT SYSTEM

- **RETROFITTABLE TO ALL OF YOUR ASSETS**

- **EZYiD TAGS, CABLE TIES AND STICKERS ARE SPECIFICALLY DESIGNED TO ATTACH TO ALL ASSETS WITH MINIMAL EFFORT AND COST**

- **THE EZYiD SYSTEM SIGNIFICANTLY REDUCES AUDITING FATIGUE AND HUMAN ERROR WHILST SIMULTANEOUSLY INCREASING WORKPLACE EFFICIENCIES**

- **ALL EZYiD TAGS, CABLE TIES AND STICKERS ARE PRE-SERIALISED WITH A UNIQUE CODE**

- **MINIMAL EFFORT AND COST**

EZYiD TAGS

EZYiD Tags are robust and economical and have been specifically designed to be applied using EZYiD's recommended adhesive to hard surfaces such as steel, aluminium or plastic. At only 6.2mm in diameter and under 2mm deep the tags are easily fitted to areas of your assets that will cause minimal operational interference.

EZYiD CABLE TIES

Great solution for attaching to variety of items, that generally are difficult to fit a tag or sticker to. Soft goods such as harnesses, slings, odd shaped equipment or even power cords come to mind when using the EZYiD Cable Ties.

EZYiD STICKERS

Stickers are great for fitting to plastic or fibre objects such as helmets and rope. Using glued heat shrink to attach to the rope, ensures a durable, easy way of implementing RFID technology to products that you would not normally apply RFiD technology to.

EZYiD kits are available to purchase through your Marlow sales representative for use on all Marlow products and your other assets. For further information contact sales@marlowropes.com
