DATASHEET

PROTEC 250

Protec 250 CE and NFPA certified semi static rope is essential for rope access professionals who require a tough and durable work positioning and abseiling rope.

Constructed with multiple twisted Nylon (polyamide) cores and a rugged 32 plait polyester cover. Supplied with optional EZY ID labels upon request.

The Polyester cover of the Protec 250 offers improved abrasion and friction resistance over conventional Nylon (PA) ropes.

Applications

Industrial access, work positioning, abseiling and ideal for power ascenders.

Key attributes

High strength, low water absorption, great abrasion resistance.
